SHORT TERM INTERNSHIP (On-Site/Virtual)

Designed & Developed by

PROGRAM BOOK FOR

SHORT-TERM INTERNSHIP

(Onsite/Virtual)

Name of the Student : Midde Swetha

Name of the College : SVB Govt. Degree College, Koilkuntla.

Registration Number : 21360041010

Period of Internship : From: 07-08-2023 To: 06-10-2023

Name and Address of
the Intern Organization : Sri Subramanyeswara Polymers, Koilkuntla.

Rayalaseema University

2022-23 YEAR

An Internship Report on
**Innovative Printing and Labeling solutions for
Polymer Cement Bags**
(Title of the Internship)

*Submitted in accordance with the requirement for the
degree of **B.Sc. Computer Science, Semester - IV***

Under the Faculty Guide ship of

Sri A. Krishna Dasu
Department of Physics

Submitted by:

Name : Midde Swetha

Reg.No: 21360041010

SVB GOVT. DEGREE COLLEGE
KOILKUNTLA

Student's Declaration

I, M. Swetha a student of
B.Sc., M.P.Cs., Program, Reg.No. 21360041010 of the Department of
Physics, SVB Govt. Degree College do here by declare that I have completed
the mandatory Short-term internship from 07th August, 2023 to 06th October
2023 in Sri Subramanyeswara Polymers, Unit II, Koilkuntla under the Faculty
Guide ship of Sri A. Krishna Dasu, Lecturer, Department of Physics, SVB
Government Degree College, Koilkuntla.

M. Swetha
(Signature and Date)

06/10/2023

Official Certificate

This is to certify that M. Swetha of II B.Sc.,
M.P.Cs., Register No. 21360041010 has completed his/her Short-term
Internship at Sri Subramanyeswara Polymers, Unit II, Koilkuntla on Innovative
Printing and Labelling solution for polymer cement bags under my supervision as a
part of partial fulfilment of the requirement for the Degree of Bachelor of Science
in the department of Physics, S.V.B. Government Degree college, Koilkuntla.

This is accepted for evaluation.

(Signature with date and seal)

Certificate from the intern Organization

This is to certify that M. Swetha, Register
No. 21360041010 of S.V.B. Government Degree college, Koilkuntla
underwent internship in Sri Subramanyeswar Polymers, Unit II, Koilkuntla from
07-08-2023 to 06-10-2023. The overall performance of the intern during his/her
internship is found to be Satisfactory (Satisfactory/ Not Satisfactory).

(Authorized Signatory with Date and Seal)

06/10/2023

Acknowledgements

First I would like to thank Sri Subramnyeswara Polymers, Unit II, Koilkuntla-518134 for giving me the opportunity to do an internship within the organization.

I would also like to thank all the people that supported and suggested me with their patience and openness they created an enjoyable working environment.

It is indeed with a great sense of pleasure and immense sense of gratitude that I acknowledge the help of these individuals.

I am highly indebted to Principal Dr. H. Rama Subba Reddy garu, for the facilities provided to accomplish this internship.

I would like to thank my Head of the Department Sri A. Krishna Dasu garu, for his constructive criticism throughout my internship.

I would like to thank Sri U. Venkateswara Reddy garu, College Internship Co-ordinator and Sri A. Krishna Dasu garu Internship Mentor, Department of Physics for their support and advice to get and complete the internship in above said organization.

I am extremely grateful to my department staff members and friends who helped me in the successful completion of this internship.

Name : M. Swetha

Regd. No. : 21360041010

Contents

Submitting the report of internship on of
polymers bag

Internship done at Sri Subramayeswara
Polymers, Koilkunta (578134). The internship assigned for
6 weeks and complete it in time

Following are the requirements for making Cement bags:-

Raw material of plastic bag:-

* miller * onrega * piller * plastic granuals

Meachinary

- * Converting granuals to thread by melting.
- * The thread can roll into bobbin by the help of
winder meachin
- * meachinary to make sheets by the threads from
the bobbin The sheets can placed as a roller.
- * The plastic roller's are kept into a printing
machine to print the details of company.
- * The sheets cut into required length and stitched
into a complete plastic bag and it can be
packed

CHAPTER 1: EXECUTIVE SUMMARY

The internship report shall have a brief executive summary. It shall include five or more learning objectives and outcomes achieved. A brief description of the sector of business and intern organization and summary of all the activities done by the intern during the period.

The internship period was started from
The students are all into the Sri Subra
manyeswara polymers koilkuntla

There we are observed about making of
plastic bags for cement packing and what are require
ments how the process are going on making the polymer
bags in different levels

Learning Objectives:-

All student know that polymers can be
designed for a purpose and name one use of
a designed polymer

Here we communicate the speaking skills
with the management skills

The student can observe and analyse the
outcomes most student can describe the major methods
of recycling polymers

In our project we are going to introduce
you with some of polymers being used daily

Learning Outcomes:- The polymers industry we have to do with knowledge and mental skills and gained.

student will read analyzed seminal works of manufacture the bags

A detailed description of what a student must be able to do at the Conclusion of the a course

Intern organisation and summary of all activities done by the intern during the period :-

We are observed the intern organisation by converting granuals to thread by melting by the machine

- * The thread can toll into a bobbin of a metallic rod.
- * The bobbin are placed in the winder can make a plastic bags by using of wheel war
- * After preparation of plastic bags can role into a sheets
- * The sheets can place into printing machine
- * The we observed that printed sheets can string a machine for final use
- * The bags are Send to Specity Company's

CHAPTER 2: OVERVIEW OF THE ORGANIZATION

Suggestive contents

- A. Introduction of the Organization
 - B. Vision, Mission, and Values of the Organization
 - C. Policy of the Organization, in relation to the intern role
 - D. Organizational Structure
 - E. Roles and responsibilities of the employees in which the intern is placed.
 - F. Performance of the Organization in terms of turnover, profits, market reach and market value.
 - G. Future Plans of the Organization.
-

Introduction of the organization

Sri Subramanyeswara polymers, In Corporation in 2007, is a firm engaged in the manufacturing of HDPE/PP woven sacks. The processing unit with current installed capacity of 7560 MT per annum is located at Koilkuntla in Nandyal district (PP) bags which are majority used for packing cement and food grains. It also sells fabric sheets which is an intermediary in the process of making bags.

Performance of the organization in terms of turn
over profits market and market value :

As per audited financials for FY 2015
SSP reported an operating income of Rs. 5820
Crore with profit after tax of Rs. 0.49 Crore
as against Rs. 44.41 Crore of operating income
with profit after tax of Rs. 0.43 Crore in
FY 2014.

<https://www.iera.in> > show Rational / Report
ssp-icRR limited

Vision, values and mission of organization

We aim to be the leading provider
of innovative PP bags that meet and exceed our
customers expectations Every single day Sri Subramanya
Swara polymers. strive to maintain a position of the
key ingredients to their success.

Our mission is to provide Customized
polymers that meet the unique needs of our clients
In provides various industries we strive to achieve
excellence in all aspects of our operations, and
Promoting Sustainability

CHAPTER 3: INTERNSHIP PART

Description of the Activities/Responsibilities in the Intern Organization during Internship, which shall include - details of working conditions, weekly work schedule, equipment used, and tasks performed. This part could end by reflecting on what kind of skills the intern acquired.

Intern assist the Company with tasks set out by various teams such as research data capturing and working closely with different team members to learn more about organization.

At the working conditions intern must treat the internship very seriously as you would with any other important career opportunity or class attendance. Punctuality, dependability, good judgment and maintaining a high quality of work.

In weekly work schedule we include on a knowledge section. provide organization background information give details of your work responsibilities during the internship.

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	visited the factory and introduced ourself with the self with the manager	Learn how to Communicate	
Day - 2	Manager Explained about the Company and process of the manufacturing bags	observing the Process of manufacturing bags	
Day - 3	observed all the machine to know the working of the machine	know the working of remaining machines	
Day - 4	we observed functionality of remaining machines	we can learn about the way of working of machines	
Day - 5	Communicate with workers discuss about the way of working	know the Process of working of machines	
Day - 6	Communicate with workers discuss about the way of working process	Communicate with workers discuss about machines	

WEEKLY REPORT

WEEK - 1 (From Dt. 7/8/23... to Dt. 12/8/23)

Objective of the Activity Done:

visited the factory and knows all the
Process of machinery

Detailed Report:

All the students of internship visited the Sri Subramanyeswara polymers factory and requested permission with the manager to complete our internship in that factory by support of employees of the factory.

Manager accepted and give permission to complete our internship in the factory with their Co-operation.

Observed all the machineries to know the functionality of the every machine contacted with the workers of the factory to know the process of the manufacturing cement bags and they have explained clearly.

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	The pp fabric sheet can move into cooling water path	We observe can move into cooling water path which is fabric sheets	
Day - 2	The sheet can cut into required width to form threads	We learn the cutting sheet in to the threads by blader	
Day - 3	The colted threads can roll the machine to reach a bobbin place	we see the threads to read the bobbin place	
Day - 4	By making of fabric sheets the waste fibre is comes out	observing that the waste fibre in comes out after making pp sheets	
Day - 5	The waste fibre can blow the blower pipe	After the waste fiber it can blow by the blower pipe	
Day - 6	Through the blower pipe it can store a separate room to recycle it	We observed their the waste can store separate for re-use	

WEEKLY REPORT

WEEK - 2 (From Dt 14/8/23... to Dt 19/8/23)

Objective of the Activity Done:

Cutting sheets into yarn

Detailed Report:

The screw extruders the liquid plastics to the mold mouth with adjustable length and thickness as required and plastic film is formed through the forming cooling water path

Then the film enters to the cutter shaft to slit into the require width the yarn goes, through a heater to be stabilize and then put to the winding.

In the process cutting yarn, the fibre waste of the plastic film are recovered by suction cut into small pieces and returned to the extruder

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	we have alerted to observe making of pp fabric sheets by melting plastic granuals	Making of fabric sheets from granuals	
Day - 2	cutting fabric sheets into yarn by using yarn forming device	Converting plastic sheets in to yarn ribbons	
Day - 3	cutting fabric sheets into yarn by using yarn forming device	Converting plastic sheets in to yarn ribbons	
Day - 4	Cutting fabric sheets in to yarn by using yarn forming device	Converting plastic sheets in to yarn ribbons	
Day - 5	Cutting fabric sheets into yarn by using yarn forming device	Converting plastic sheets in to yarn ribbons	
Day - 6	cutting fabric sheets in to yarn by using yarn forming device	Converting plastic sheets in to yarn ribbons	

WEEKLY REPORT

WEEK - 3 (From Dt 21/8/23 to Dt 26/8/23)

Objective of the Activity Done:

observed materials used to make bags

Detailed Report:

Depending on the different purposes of use, cement bags manufactures can create it from different materials But the most common cement packing bag material is poly propylene plastic

Most of cement bags currently used in market are made from poly propylene plastic

Following are the materials for the plastic cement bags

- * Miller

- * Omega

- * poly propylene

ACTIVITY LOG FOR THE FOURTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	The bobbins can place by loom stand	We observed that the bobbins can place loom stand	Ben
Day - 2	Loom stand can converted to compactor	We see the loom stand it can connected to compactor	Ben
Day - 3	From these we can see the wheel war to weave the threads	We have to learn that the weaving of threads by wheel	Ben
Day - 4	The weaved threads can make fabric sheets	The fabric sheet can made by weaved threads	Ben
Day - 5	The fabric sheet can roll by roller	We observed the sheet can roll by roller	Ben
Day - 6	After that it's placed the separate by roller	We learn the roller can placed by separately	Ben

WEEKLY REPORT

WEEK - 4 (From Dt 11/9/23 to Dt 16/9/23)

Objective of the Activity Done:

Yarn rolls are put into circular

Detailed Report:

loom to weave into fabric tubes

The pp yarn are put in to the shuttle
Circular loom to weave into pp fabric tubes to
The pp fabric winding machine

The pp fabric roll is installed by the
for lift truck on the film coating machine the
pp fabric sheets is coated with a thickness of
30 pp plastic to increase the bond of moisture
Proof fabric roll of pp fabric coated and roll

ACTIVITY LOG FOR THE FIFTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	The cutting threads can roll into bobbins	We learn thread can roll in to bobbins	
Day - 2	The rollers can spread by winding machine	We observed that how to winding the bobbins	
Day - 3	The winder can make a bobbins	The bobbins can make by the help of winder	
Day - 4	The bobbins are placed in an single row nearly 24, bobbins	We observed that the bobbins are rolled in 24 in a single stand	
Day - 5	The bobbins can roll the threads	We learn the threads to roll the bobbins	
Day - 6	The rolled bobbins can placed in to further process	The bobbins can place in to next process	

WEEKLY REPORT

WEEK - 5 (From Dt 25/9/23... to Dt 30/9/23)

Objective of the Activity Done:

The cutting threads are rolled in to bobbins

Detailed Report:

The cutting threads are rolled in to bobbins by using winding machine

All the bobbins are placed in to loom stand to make the sheet which is connected to starting machine

Sheets are rolled as required measurement and that sheet can roll in to the shuttle circular loom

ACTIVITY LOG FOR THE SIXTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	Printing Process of the details of product and company on the plastic sheet	learned how to print details on the bags	
Day - 2	Printing Process of the details of product and company on sheets	learned how to print details on bags	
Day - 3	Cutting sheets in to required length & width of the bag	learned how the machine cutting	
Day - 4	Cutting sheets in to required length and width of the bag	learned how the cutting machine works	
Day - 5	After Cutting of sheets stitching of bags	stitching of bags using machine	
Day - 6	After Cutting of sheets stitching of bags	stitching of bags using machine	

WEEKLY REPORT

WEEK - 6 (From Dt. 2/10/23 to Dt. 6/10/23)

Objective of the Activity Done:

Observe and learn things

Detailed Report:

After the printing process. on the first day of the 6th week all batch students are attended at Company to observe and learn things after the Printing Process

After completion of the printing the rolls of the sheets will be connected to cutting machine to cut the sheets as required length and width.

After cutting the sheets, the machine with the machine width send that sheets to stitch that sheets to make the bags for that bags while stitching the bags opened at one side to fill the materials. This is the last step of making cement bags.

CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

while doing our internship we have experienced

So many things

- * It was great experience to me, while interacting with the employees of the industry. I have learned a lot of new things about industry environment and nature of work in different levels manufacturing Process
- * The industry Provide us good opportunity by facilitating to learn the manufacturing of bags in different levels and allowed us to stay in the industry from 10:00 AM to 5:00 pm during working days
- * They were explained the duties and responsibilities of the employees like manager Asst manager HR Supervisor clerk and machine operators
- * Each and every employee of the industry doing their job as per the industry Protocols like duty timings
- * All the staff are doing their work together in friendly manner and also supported us well while doing our internship

Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)

In our internship we have acquired lot of technical skills mentioned below:

- * Time management
- * Functionality of the machines in different levels
- 1. mixing and melting the raw materials to make the fabric sheets
- 2. Fabric sheet cutting machine to make yarn
- 3. How work with looming machine to make yarn rolls
- 4. Functionality of the weaving machine to prepare the sheets by weaving the yarn
- 5. Learned technical ~~for~~ of stitching and cutting machine
- 6. observed and practiced on the printing machine to print the details of products on the cement bags

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.

Leadership :- Leadership skills are key to successful management. Being an effective leader means guiding a team to achieve the company's objectives and contributing to a positive productive work environment.

Project Management :- Project management is the process of leading and organizing a team to complete a project within a specific time frame.

Communication :- Being able to communicate effectively and efficiently across diverse teams through verbal and written exchanges is a key management skill.

Planning :- Managers are required to think ahead to ensure current activities and projects align with overall business goals. Planning ahead and taking the initiative to brainstorm for the future.

Problem Solving :- Finding solutions to problems is a skill needed in nearly every job. Teams need leaders who are able to resolve issues creatively using any resources available to approach & tackle them successfully.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

Oral Communication :- I learned oral communication skills in the industry while doing internship sharing knowledge and discuss with team members and communicate with industry employees

Written Communication :- I have learned written skills with the experience of writing reports of the every day activity and logs

Understanding skills understanding skills is proficiency developed through training or experience A skill is a thing you can do

It is basis of 'I can do' statements and it is demonstrated and assessed easily in formal learning

Skills :-

- * Topic knowledge is not necessary but the way you approach is matters
- * Think first then speak
- * Remain calm and compose

Describe how you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

In group discussion i was enhance my skills to
Participate in group discussion how to behave and
Contribute in group about the topic

How much importance need to give to the
Group Objective as well as my opinion listen to
view points of others and how openly is need to express
my thoughts

The aspect which make up a group discussion Verbal
Communication and non-verbal Communication.

while participating in group discussion with
team we should be aware of the topic which is
discussion at the time

Required skills for GD :

- * Communication skills
- * Interpersonal Skills
- * Leadership Skills
- * Presentation skills
- * Team building skills

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

Some of the latest advancement in digital

Printing :-

- * High-speed printing :- Many digital printing systems can now print at speeds that are comparable to traditional offset printing systems, making them suitable for high-volume printing applications.
- * Variable data printing :- Digital printing allows business to produce customized products on demand using variable data printing techniques to personalize each item with unique text, images, or other content.
- * 3D Printing :- Some digital printing system can produce 3D printing objects allowing businesses to produce customized products in a variety of shapes and sizes.
- * Printing on non-traditional materials :- Digital printing technology has made it possible to print on a wide range of variety materials, including plastics, metals, and fabrics, opening up new opportunities for businesses in various industries.

Student Self Evaluation of the Short-Term Internship

Student Name: M. Swetha

Registration No: 21360041010

Term of Internship:

From: 7/07/2023

To: 6/10/2023

Date of Evaluation:

Organization Name & Address:

Sri Subramanyeswara
Polymers, Koilkuntla.

Please rate your performance in the following areas:

Rating Scale: Letter grade of CGPA calculation to be provided

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5
7	Ability to learn	1	2	3	4	5
8	Work Plan and organization	1	2	3	4	5
9	Professionalism	1	2	3	4	5
10	Creativity	1	2	3	4	5
11	Quality of work done	1	2	3	4	5
12	Time Management	1	2	3	4	5
13	Understanding the Community	1	2	3	4	5
14	Achievement of Desired Outcomes	1	2	3	4	5
15	OVERALL PERFORMANCE	1	2	3	4	5
